### **Course Outline:**

Following the Institution of Occupational Safety & Health (IOSH) Managing Safely syllabus, this four-day course is an introduction to health and safety based on internationally-recognized standards

It is suitable for directors, managers and supervisors and anyone associated with company health and safety, to enable safe and effective management of health and safety in compliance with their organization's policies and best practice in health and safety

Upon successful completion of the course, passing a written assessment and completion of a short "work based" project, delegates will be issued with an IOSH Certificate

### **Assessment:**

The course is assessed by a short examination and a work-based practical exercise, both set by IOSH

The practical exercise should be returned to the trainer for marking and further verification by IOSH

### **Trainer:**

All trainers are health and safety professionals with many years experience, mostly across many industries

This course allows the perfect opportunity to discuss issues with these highly-experienced persons

### **Training Progression:**

NEBOSH National General Certificate

NVQ in Health and Safety
