Safety & Access offers IOSH Managing Safely

Safety and Access is an accredited provider of this flagship Safety Management Course. As the acknowledged leaders in Safety training for the access industries, we are ideally placed to deliver a relevant, dynamic course that will help managers with a responsibility for safe management within the business to manage safety more effectively. Risk assessments, safety management systems and safety policy are all covered within a course that is delivered in our purpose-designed Nottingham training facility. IOSH Managing Safely will be delivered as a four-day course, one day per week throughout September 2006.

To deliver these courses, Safety and Access are proud to introduce **Darren Allport** MIIRSM MIOSH MRSH PgDipOSH DipSM. Darren is a seasoned Safety professional, having spent five years as a HSE inspector following long experience of safety within the Ministry of Defence and RAF.

To book your place on these courses or for more information please contact Safety and Access in Nottingham on 0115 979 4523.
